Auditor General's Report
& Audit Action Plan

AUDITOR-GENERAL
SOUTH AFRICA

The accounting officer
Dr Js Moroka Local Municipality
A2601/3 Bongimfundo street
Siyabuswa
0472
1 December 2017

Reference: 18014Reg16/17

Dear Sir/Madam

Report of the Auditor-General on the financial statements and other legal and regulatory requirements of Dr JS Moroka Local Municipality for the year ended 30 June 2017

1. The above-mentioned report of the Auditor-General is submitted herewith in terms of section 21(1) of the Public Audit Act of South Africa read in conjunction with section 188 of the Constitution of the Republic of South Africa section 121(3) of the Municipal Finance Management Act of South Africa (MFMA)
2. We have not yet received the other information that will be included in the annual report with the audited financial statements and have thus not been able to establish whether there are any inconsistencies between this information and the audited financial statements and the reported performance against pre-determined objectives. You are requested to supply this information as soon as possible. Once this information is received it will be read and should any inconsistencies be identified these will be communicated to you and you will be requested to make the necessary corrections. Should the corrections not be made we will amend and reissue the audit report.
3. In terms of section [121(3) (municipality); of the MFMA] you are required to include the audit report in the municipality's annual report to be tabled.
4. Until the annual report is tabled as required by section [127(2) of the MFMA (municipality)] the audit report is not a public document and should therefore be treated as confidential.
5. Prior to printing or copying the annual report which will include the audit report you are required to do the following:
 - Submit the final printer's proof of the annual report to the relevant senior manager of the Auditor-General of South Africa for verification of the audit-related references in the audit report and for confirmation that the financial statements and other information are those documents that have been read and audited. Special care should be taken with the page references in your report, since an incorrect reference could have audit implications.
 - The signature *Auditor-General* in the handwriting of the auditor authorised to sign the audit report at the end of the hard copy of the audit report should be scanned in when preparing to print the report. This signature, as well as the place and date of signing and the Auditor-General of South Africa's logo, should appear at the end of the report, as in the hard copy that is provided to you. The official logo will be made available to you in electronic format.
6. Please notify the undersigned Senior Manager well in advance of the date on which the annual report containing this audit report will be tabled.
7. Your cooperation to ensure that all these requirements are met would be much appreciated.

Auditing to build public confidence

Kindly acknowledge receipt of this letter.

Yours sincerely

Signed

A handwritten signature in black ink, appearing to be 'Thapedi Hlakotsa', written over a dotted line.

Senior Manager: Mpumalanga

Fax: (012) 345 6789

Report of the auditor-general to the Mpumalanga Provincial
Legislature and the council on the Dr JS Moroka Local Municipality

Qualified opinion

1. I have audited the financial statements of the Dr JS Moroka Local Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2017, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget information with actual information for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects of the matters described in the basis for qualified opinion paragraphs, the financial statements present fairly, in all material respects, the financial position of the Dr JS Moroka Local Municipality as at 30 June 2017 and its financial performance and cash flows for the year then ended, in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2016 (Act No. 3 of 2016) (DoRA).

Basis for qualified opinion

Property, plant and equipment

3. I was unable to obtain sufficient appropriate audit evidence for property, plant and equipment due to an unreconciled difference of R117 294 028 (2015-16: R18 565 248) between the fixed asset register and the annual financial statements.
4. In addition, some of the infrastructure assets selected from the asset register could not be physically verified, as the asset register did not contain adequate information to locate the assets. Furthermore, land reflected in the name of the municipality in the valuation roll could not be traced to the asset register, due to the asset register not containing unique identifiers to enable verification.
5. I was unable to obtain sufficient appropriate audit evidence for transfers from assets under construction, due to the non-submission of supporting documents. I was unable to determine whether any adjustments were necessary relating to the transfer of assets under construction amounting to R69 978 945 disclosed in note 10 to the financial statements.

6. During 2016, I was unable to obtain sufficient appropriate audit evidence for the impairment loss and to confirm the loss by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to the impairment loss stated at R67 536 889. My audit opinion on the financial statements for the period ended 30 June 2016 was modified accordingly. My opinion on the current year's financial statements is also modified because of the possible effect of this matter on the comparability of the impairment loss for the current period.
7. I was unable to confirm property, plant and equipment by alternative means, as the records of the municipality did not permit this. Consequently, I was unable to determine whether any further adjustments were necessary relating to property, plant and equipment of R1 883 441 686 (2015-16: R1 822 394 706) stated in note 4 to the financial statements.

Revenue and receivables

8. I was unable to obtain sufficient appropriate audit evidence for revenue from the sale of water, as the municipality did not provide me with the meter readings for water consumed by customers. I could not confirm the revenue from the sale of water by alternative means, as the municipality's records did not permit this. Consequently, I was unable to determine whether any adjustment was necessary to revenue from the sale of water amounting to R52 265 030 as disclosed in note 17 to the financial statements.
9. The municipality did not reliably measure revenue in accordance with GRAP 9, *Revenue from exchange transactions* and GRAP 23, *Revenue from non-exchange transactions*. The municipality did not charge property rates, service charges and interest trading in terms of its policy. As a result, property rates, service charges and interest trading were overstated by R42 864 840, R12 203 810 and R20 837 502, respectively. Consequently, consumer debtors and value-added tax were also overstated. Additionally, there was a resultant impact on the surplus for the period.
10. Consequently, I was unable to determine whether any further adjustments were necessary relating to total revenue stated at R621 865 681 in the financial statements.
11. In terms of GRAP 104, *Financial instruments*, an entity is required to assess individually significant financial assets for impairment where there are indicators of impairment, and to collectively assess significant financial assets with groups of assets with similar credit-risk characteristics. Contrary to this requirement, the municipality did not assess individual debtors' payment history in calculating the debtors' impairment. I could not confirm the municipality's allowances for impairment by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to allowances for impairment amounting to R199 659 805 as disclosed in note 7 to the financial statements.

Irregular expenditure

12. I was unable to obtain sufficient appropriate evidence to satisfy myself that the municipality had accounted for all irregular expenditure, as adequate internal controls had not been established to identify irregular expenditure for the current and previous year, as required by section 125(2)(d)(i) of the MFMA. I could not confirm by alternative means whether all irregular expenditure had been recorded and investigated. Consequently, I was unable to determine whether any adjustments were necessary to the irregular expenditure of R273 993 493 (2015-16: R315 876 071) disclosed in note 50 to the financial statements.

Context for the opinion

13. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
14. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *Code of ethics for professional accountants* (IESBA code) together with the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
15. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of matters

16. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

17. As disclosed in note 44 to the financial statements, the corresponding figures for 30 June 2016 have been restated as a result of an error in the financial statements of the municipality at, and for the year ended, 30 June 2017.

Material losses – water

18. As disclosed in note 51 to the financial statements, material water losses to the amount of R13 833 087 (2015-16: R10 712 576) were incurred.

Material impairments – trade debtors

19. As disclosed in note 7 to the financial statements, material losses to the amount of R199 659 805 were incurred as a result of the impairment of irrecoverable trade debtors.

Other matter

20. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure note

21. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion thereon.

Responsibilities of the accounting officer

22. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and DoRA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

23. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the accounting officer either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

24. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

25. A further description of my responsibilities for the audit of the financial statements is included in the annexure to the auditor's report.

Report on the audit of the annual performance report

Introduction and scope

26. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected objectives presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.

27. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
28. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected objective presented in the annual performance report of the municipality for the year ended 30 June 2017:

Objectives	Pages in the annual performance report
KPA 5: basic service delivery – community development services and infrastructure	x – x

29. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
30. The material findings in respect of the usefulness and reliability of the selected objective are as follows:

KPA 5: basic service delivery – community development services and infrastructure

All indicators

31. I was unable to obtain sufficient appropriate audit evidence for the reported achievement of the targets. This was due to limitations placed on the scope of my work. I was unable to confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements.

Other matter

32. I draw attention to the matter below.

Achievement of planned targets

33. Refer to the annual performance report on pages x to x for information on the achievement of planned targets for the year and explanations provided for the underachievement of a significant number of targets. This information should be considered in the context of the material findings on the reliability of the reported performance information in paragraph 31 of this report.

Introduction and scope

34. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
35. The material findings in respect of the compliance criteria for the applicable subject matters are as follows:

Revenue management

36. An effective system of internal control for debtors and revenue was not in place, as required by section 64(2)(f) of the MFMA.

Expenditure management

37. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
38. Effective steps were not taken to prevent irregular expenditure, as required by section 62(1)(d) of the MFMA. The value of R273 993 493 as disclosed in note 50 was not complete, as management was still in the process of quantifying the full extent of the irregular expenditure.

Asset management

39. An effective system of internal control for assets (including an asset register) was not in place, as required by section 63(2)(c) of the MFMA.

Annual financial statements and annual report

40. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Some material misstatements of liabilities and expenditure identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records provided, but the uncorrected material misstatements resulted in the financial statements receiving a qualified audit opinion.

41. The annual performance report for the year under review did not include a comparison of the performance with set targets and measures taken to improve performance, as required by section 46(1)(a) and (c) of the Municipal Systems Act of South Africa, 2000 (Act No. 32 of 2000) (MSA).
42. The oversight report adopted by the council on the 2015-16 annual report was not made public, as required by section 129(3) of the MFMA.
43. The council failed to adopt an oversight report containing the council's comments on the annual report within the prescribed timelines, as required by section 129(1) of the MFMA.

Consequence management

44. Unauthorised expenditure incurred by the municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(a) of the MFMA.
45. Some of the irregular expenditure incurred by the municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.
46. Fruitless and wasteful expenditure incurred by the municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Budget

47. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R52 943 876, as disclosed in note 48 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending on programmes.

Human resource management

48. Appropriate systems and procedures to monitor, measure and evaluate the performance of staff were not developed and adopted, as required by section 67(1)(d) of the MSA.

Procurement and contract management

49. Some goods and services with a transaction value below R200 000 were procured without obtaining the required price quotations, in contravention of supply chain management (SCM) regulation 17(a) and (c).
50. Some invitations for competitive bidding were not advertised for the required minimum period, in contravention of SCM regulation 22(1) and 22(2).
51. Some contracts were awarded to bidders based on functionality criteria that had not been stipulated in the original invitation for bidding, in contravention of the Preferential Procurement Regulations.

52. Some competitive bids were not evaluated by bid evaluation committees composed of at least one SCM practitioner of the municipality, as required by SCM regulation 28(2).
53. Some competitive bids were adjudicated by a bid adjudication committee that was not composed in accordance with SCM regulation 29(2).
54. Some contracts were awarded to bidders other than those recommended by the bid evaluation committee without ratification by the accounting officer, as required by SCM regulation 29(5)(b)
55. Bid documentation for the procurement of commodities designated for local content and production did not stipulate the minimum threshold for local production and content, as required by preferential procurement regulation 9(1). Similar non-compliance was also reported in the prior year.
56. Some construction contracts were awarded to contractors that did not qualify for the contract in accordance with section 18(1) of the Construction Industry Development Board Act of South Africa, 2000 (Act No. 38 of 2000).
57. Some contracts were extended or modified without the approval of a properly delegated official, in contravention of SCM regulation 5.
58. The performance of contractors or providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA. Similar non-compliance was also reported in the prior year.
59. Awards were made to providers who were in the service of other state institutions and whose directors or principal shareholders were in the service of other state institutions, in contravention of section 112(j) of the MFMA and SCM regulation 44.
60. Persons in the service of the municipality whose close family members had a private or business interest in contracts awarded by the municipality failed to disclose such interest, in contravention of SCM regulation 46(2)(e), the code of conduct for councillors issued in terms of the MSA, and the code of conduct for staff members issued in terms of the MSA.

Other information

61. The municipality's accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report thereon and those selected objectives presented in the annual performance report that have been specifically reported on in the auditor's report.
62. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

63. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed on the other information obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact.
64. I have read the other information included in the draft annual report and have nothing to report in this regard.
65. I have not yet received the final annual report containing the other information. When I do receive this information, and if I conclude that it contains a material misstatement, I am required to communicate the matter to those charged with governance and to request the other information to be corrected. If the other information is not corrected, I may have to re-issue my auditor's report amended as appropriate

66. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation, however, my objective was not to express any form of assurance thereon. The matters reported below are limited to the significant internal control deficiencies that resulted in the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.

Leadership

67. Management did not exercise oversight responsibility regarding financial and performance reporting and compliance as well as related internal controls.
68. Management did not establish and communicate policies and procedures to enable and support the understanding and execution of internal control objectives, processes and responsibilities.
69. Management did not develop and monitor the implementation of action plans to address internal control deficiencies.

Financial and performance management

70. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information was accessible and available to support financial and performance reporting.
71. Management did not implement controls over daily and monthly processing and reconciling of transactions.
72. Management did not prepare regular, accurate and complete financial and performance reports that were supported and evidenced by reliable information.

73. Management did not review and monitor compliance with applicable legislation.

Governance

74. Management did not ensure that there was an adequately resourced and functioning internal audit unit that could identify internal control deficiencies and recommend corrective action effectively.

75. The council did not ensure that a functional audit committee was established

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial and non financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and must be given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal controls established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the 30 June 2017 to 30 June 2018 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The accounting officer certify that salaries, allowances and benefits of Councillors as disclosed in note 26 of these Annual Financial Statements are in line with the upper limits of framework envisaged in section 219 of the Constitution read with Remuneration of Public Office Bearers Act, Act no 20 of 1998 and section 124 of the Municipal Management Act, Act 56 of 2003.

The external auditors are responsible for independently reviewing and reporting on the municipality's annual financial statements.

The annual financial statements of Dr JS Moroka Municipality set out on pages 6 to 64, which have been prepared on going concern basis, were approved by the municipality on 31 August 2017 and were signed on its behalf by:

Rampedi MR
Acting Accounting Officer

Siyabuswa
31 August 2017

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2017.

1. Review of activities

Main business and operations

The municipality is engaged in local municipality and operates principally in South Africa.

The operating results and state of affairs of the municipality are fully set out in the attached annual financial statements and do not in our opinion require any further comment.

Net surplus of the municipality is R 65 281 889 (2016: deficit R 24 855 820).

2. Going concern

We draw attention to the fact that at 30 June 2017, the municipality's current liabilities exceed its current assets by R19 156 029. The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

3. Subsequent events

For the duration of 2016/2017 financial year, the accounting officer for the municipality was Mr Mahlangu BS. His contract ended by 31 July 2017 from which Mrs Rampedi MR was appointed by council as the acting accounting officer effective 01 August 2017.

Mr Letsoalo MT was appointed as the chief financial officer of the municipality effective 1 July 2017.

4. Accounting policies

The annual financial statements prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board and National Treasury guidelines.

5. Accounting Officer

The accounting officer of the municipality during the year and to the date of this report is as follows:

Name	Nationality	Changes
Rampedi MR	South African	Appointed 01 August 2017
Mahlangu BS	South African	Resigned 31 July 2017

6. Bankers

The municipality banks primarily with ABSA Bank Limited.

7. Auditors

Auditor General South Africa will continue in office for the next financial period.

8. Public Private Partnership

In accordance with the PPP agreement, the Contractor shall open a separate account with a bank registered in the Republic of South Africa, for the purpose of administering and separate safekeeping of:

- moneys deposited as excess surpluses;
- any foreign exchange rate amounts;
- any service credits; and
- any penalties for later service commencement mental text.

During the financial period under reviewed 30 June 2017, Dr JS Moroka Local Municipality did not enter into any Public Private Partnership agreements.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Officer's Report

9. Consumer debtors

The book value of consumer debtors is standing at R79 502 003 as of 30 June 2017. The above figure is determined after an amount of R199 659 805 in respect of allowance for impairment has been taken into account.

Statement of Comparison of Budget and Actual Amounts

Budget on Accrual Basis

	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
	R	R	R	R	R	
Total revenue	81 333 500	(19 496 000)	61 837 500	95 806 591	33 969 091	
Revenue from non-exchange transactions						
Taxation revenue						
Property rates	27 366 000	(5 370 000)	21 996 000	57 693 651	35 697 651	Our billing base increased due to correction of previous accounts that were not billed.
Transfer revenue						
Government grants & subsidies	439 592 000		439 592 000	427 702 802	(11 889 198)	Equitable share was erroneously set-off by Treasury which led the municipality in writing the difference.
Public contributions and donations				35 070 635	35 070 635	Donated assets from sector departments and district
Licences and permits	7 500 000		7 500 000	3 314 382	(4 185 638)	Decrease in use of stations
Traffic fines	500 000		500 000	2 282 470	1 782 470	More tickets were issued as than budgeted. As the budget was more of what the municipality will actually collect
Total revenue from non-exchange transactions	474 958 000	(5 370 000)	469 588 000	526 063 920	56 475 920	
Total revenue	556 291 500	(24 866 000)	531 425 500	621 870 511	90 445 011	
Expenditure						
Personnel	(192 050 000)	25 994 000	(166 056 000)	(165 426 349)	629 651	The spending was within the budget and it is considered normal.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Statement of Comparison of Budget and Actual Amounts

Budget on Accrual Basis

	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
	R	R	R	R	R	
Remuneration of councillors	(21 176 000)	1 427 000	(19 749 000)	(21 204 997)	(1 455 997)	Upper limit and benefits was received after the adjustment budget which resulted in the expenditure being higher than budgeted.
Depreciation and amortisation	(140 000 000)		(140 000 000)	(54 392 876)	85 607 124	
Finance costs	(159 000)		(159 000)	(1 602 837)	(1 443 837)	The finance cost for leases has budgeted into rental machine vote.
Contracted services	(42 000 000)	(13 109 000)	(55 109 000)	(76 168 167)	(21 059 167)	The overspending on contracted services which is reported as unauthorised expenditure per vote.
Bad debts written off	(50 000 000)		(50 000 000)	(40 071 334)	9 928 666	Due to the movement in provision for impairment.
Repairs and maintenance	(40 810 000)		(40 810 000)	(60 258 540)	(19 448 540)	The overspending on contracted services which is reported as unauthorised expenditure per vote.
Grant and subsidies paid	(3 569 000)		(3 569 000)	(1 961 057)	1 607 943	The indigent register was reviewed, which resulted in the total number of indigent being reduced.
General Expenses	(131 494 000)	3 819 000	(127 675 000)	(134 506 162)	(6 831 162)	General expenditure increased due to inflation, eskom tariff increase, escalation of water purification chemicals and fuel.
Fair value adjustments				(75 000)	(75 000)	
Actuarial gains recognised				(95 000)	(95 000)

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period, except for the changes set out in note Changes in accounting policy.

1.1 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Cost model

Investment property is carried at cost less accumulated depreciation and any accumulated impairment losses.

the useful life of the property, is as follows:

Item	Useful life
Property - land	Indefinite

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of operations, including the nature or type of properties classified as held for strategic purposes, are as follows:

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.3 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses except for X,X and X which is carried at revalued amount being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.3 Property, plant and equipment (continued)

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings when the asset is derecognised.

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings as the asset is used. The amount transferred is equal to the difference between depreciation based on the revalued carrying amount and depreciation based on the original cost of the asset.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited in revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The useful lives of items of property, plant and equipment have been assessed as follows:

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Accounting Policies

1.3 Property, plant and equipment (continued)

Assets which the municipality holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the change in accounting policy.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

1.4 Site restoration and dismantling cost

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which a municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

If the related asset is measured using the cost model:

- (a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- (b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
- (c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

If the related asset is measured using the revaluation model:

- (a) changes in the liability alter the revaluation surplus or deficit previously recognised on that asset, so that:
 - a decrease in the liability (subject to (b)) is credited to revaluation surplus in net assets, except that it is recognised in surplus or deficit to the extent that it reverses a revaluation deficit on the asset that was previously recognised in surplus or deficit
 - an increase in the liability is recognised in surplus or deficit, except that it is debited to the revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.
- (b) in the event that a decrease in the liability exceeds the carrying amount that would have been recognised had the asset been carried under the cost model, the excess is recognised immediately in surplus or deficit; and
- (c) a change in the liability is an indication that the asset may have to be revalued in order to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. Any such revaluation is taken into account in determining the amounts to be taken to surplus or deficit or net assets under (a). If a revaluation is necessary, all assets of that class are revalued.

1.5 Intangible assets

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.5 Intangible assets (continued)

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

1.6 Financial Instruments

Classification

Classification depends on the purpose for which the financial instruments were obtained / incurred and takes place at initial recognition. Classification is re-assessed on an annual basis, except for derivatives and financial assets designated as at fair value through surplus or deficit, which shall not be classified out of the fair value through surplus or deficit category.

Fair value determination

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the municipality establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.6 Investments in associates (continued)

Impairment of financial assets

At each end of the reporting period the municipality assesses all financial assets, other than those at fair value through surplus or deficit, to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired.

For amounts due to the municipality, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default of payments are all considered indicators of impairment.

In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator of impairment. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in surplus or deficit - is removed from equity as a reclassification adjustment and recognised in surplus or deficit.

Impairment losses are reversed when an increase in the financial asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the financial asset at the date that the impairment is reversed shall not exceed what the carrying amount would have been had the impairment not been recognised.

Impairment losses are not subsequently reversed for available-for-sale equity investments which are held at cost because fair value was not determinable.

Where financial assets are impaired through use of an allowance account, the amount of the loss is recognised in surplus or deficit within operating expenses. When such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

Receivables from exchange transactions

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in surplus or deficit when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the deficit is recognised in surplus or deficit within operating expenses. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against operating expenses in surplus or deficit.

Trade and other receivables are classified as loans and receivables.

Payables from exchange transactions

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently recorded at fair value.

Bank overdraft and borrowings

Bank overdrafts are initially measured at fair value, and are subsequently measured at amortised cost. The overdraft recorded as a liability in the statement of financial position.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.6 Investments in associates (continued)

Impairment of financial assets

The municipality assesses at each statement of financial position date whether a financial asset or group of financial assets is impaired.

Assets are carried at amortised cost.

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset shall be reduced either directly or through the use of an allowance account. The amount of the loss shall be recognised in surplus or deficit. The municipality first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

1.7 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

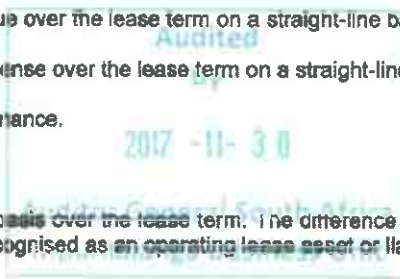

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

Accounting Policies

1.8 Inventories

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of the business.

The cost of inventories comprises of all costs of purchase, costs, of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.9 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

Termination benefits are employee benefits payable as a result of either:

- an entity's decision to terminate an employee's employment before the normal retirement date; or
- an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

The salaries, allowances and benefits of Councillors are dealt with the upper limits of framework envisaged in section 219 of the constitution read with Remuneration of Public Office Bearers Act, Act no 20 of 1998 and section 124 of the Municipal Finance Management Act, Act 56 of 2003.

The salaries, wages, allowances and benefits for employees for rendering of services are recognised in the statement of financial performance in the period incurred.

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.9 Employee benefits (continued)

Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognise actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The entity account not only for its legal obligation under the formal terms of a defined benefit plan, but also for any constructive obligation that arises from the entity's informal practices. Informal practices give rise to a constructive obligation where the entity has no realistic alternative but to pay employee benefits. An example of a constructive obligation is where a change in the entity's informal practices would cause unacceptable damage to its relationship with employees.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- plus any liability that may arise as a result of a minimum funding requirement

The amount determined as a defined benefit liability may be negative (an asset). The entity measure the resulting asset at the lower of:

- the amount determined above; and
- the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of these economic benefits is determined using a discount rate which reflects the time value of money.

Any adjustments arising from the limit above is recognised in surplus or deficit.

The entity determine the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

1.10 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Audited
Auditor General - 11-3
Municipalities with Affiliates Unit

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.10 Provisions and contingencies (continued)

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of a activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in the note to annual financial statements..

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

The municipality recognises a provision for financial guarantees and loan commitments when it is probable that an outflow of resources embodying economic benefits and service potential will be required to settle the obligation and a reliable estimate of the obligation can be made.

Determining whether an outflow of resources is probable in relation to financial guarantees requires judgement. Indications that an outflow of resources may be probable are:

- financial difficulty of the debtor;
- defaults or delinquencies in interest and capital repayments by the debtor;
- breaches of the terms of the debt instrument that result in it being payable earlier than the agreed term and the ability of the debtor to settle its obligation on the amended terms; and
- a decline in prevailing economic circumstances (e.g. high interest rates, inflation and unemployment) that impact on the ability of entities to repay their obligations.

Where a fee is received by the municipality for issuing a financial guarantee and/or where a fee is charged on loan commitments, it is considered in determining the best estimate of the amount required to settle the obligation at reporting date. Where a fee is charged and the municipality considers that an outflow of economic resources is probable, a municipality recognises the obligation at the higher of:

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.10 Provisions and contingencies (continued)

- the amount determined using in the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets; and
- the amount of the fee initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the Standard of GRAP on Revenue from Exchange Transactions.

Decommissioning, restoration and similar liability

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

The related asset is measured using the cost model:

- changes in the liability is added to, or deducted from, the cost of the related asset in the current period.
- the amount deducted from the cost of the asset does not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit.
- if the adjustment results in an addition to the cost of an asset, the entity consider whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If there is such an indication, the entity test the asset for impairment by estimating its recoverable amount or recoverable service amount, and account for any impairment loss, in accordance with the accounting policy on impairment of assets as described in accounting policy

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in surplus or deficit as they occur. This applies under both the cost model and the revaluation model.

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

1.11 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.11 Revenue from exchange transactions (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by services performed to date as a percentage of total services to be performed.

Interest

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

1.12 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by an municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.12 Revenue from non-exchange transactions (continued)

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

1.13 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

1.14 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.15 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.16 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.17 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.18 Irregular expenditure

Irregular expenditure as defined in section 1 of the MFMA is expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act, and which has not condoned in terms of section 170;

Expenditure incurred by a municipality or municipal entity in Contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act, and which has not been condoned in terms of that Act;

Expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Bearers Act, 1998 (Act 30 No. 20 of 1998); or

Expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy, and which has not been condoned in 35 terms of such policy or by-law

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

1.19 Use of estimates

The preparation of annual financial statements in conformity with Standards of GRAP requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the municipality's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the annual financial statements are disclosed in the relevant sections of the annual financial statements. Although these estimates are based on management's best knowledge of current events and actions they may undertake in the future, actual results ultimately may differ from those estimates.

1.20 Budget information

The general purpose of financial reporting by the municipality, shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

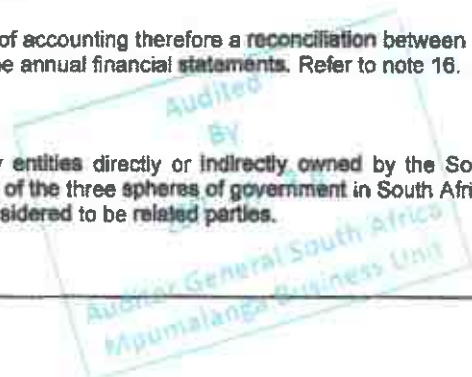

The approved budget is prepared on a cash basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2015-07-01 to 2016-06-30.

The annual financial statements and the budget are not on the same basis of accounting therefore a reconciliation between the statement of financial performance and the budget have been included in the annual financial statements. Refer to note 16.

1.21 Related parties

The municipality operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, only entities within the national and provincial sphere of government are considered to be related parties.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Accounting Policies

1.21 Related parties (continued)

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

1.22 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

1.23 Capital Commitments

Items are classified as commitments where the municipality commits itself to future transactions that will normally result in outflow of resources.

Capital commitments are not recognised in statement of financial position as a liability, but are included in the disclosure notes.

1.24 Value-Added Tax

The municipality applies the payments basis for VAT purposes as per the Value-Added Tax Act. Output tax is payable as and when the purchase consideration are received and input will be claimed as and when payments is made.

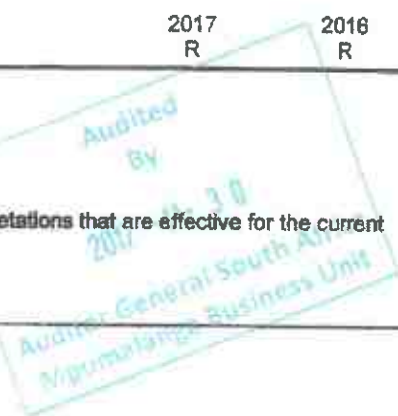

1.25 Receivables from non-exchange transactions

An inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset shall be recognised as an asset when, and only when:

- (a) It is probable that the future economic benefits or service potential associated with the asset will flow to the entity
- (b) The fair value of the assets can be measured reliably.

Notes to the Annual Financial Statements

	2017 R	2016 R
2. New standards and interpretations		
2.1 Standards and Interpretations effective and adopted in the current year		
In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:		

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• GRAP 108: Statutory Receivables	01 April 2016	The impact of the is not material.
• GRAP 32: Service Concession Arrangements: Grantor	01 April 2016	The impact of the is not material.
• IGRAP 17: Service Concession Arrangements where a Grantor Controls a Significant Residual Interest in an Asset	01 April 2016	The impact of the is not material.

2.2 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2017 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• GRAP 34: Separate Financial Statements	01 April 2019	Unlikely there will be a material impact
• GRAP 35: Consolidated Financial Statements	01 April 2019	Unlikely there will be a material impact
• GRAP 36: Investments in Associates and Joint Ventures	01 April 2019	Unlikely there will be a material impact
• GRAP 37: Joint Arrangements	01 April 2019	Unlikely there will be a material impact
• GRAP 38: Disclosure of Interests in Other Entities	01 April 2019	Unlikely there will be a material impact
• GRAP 110: Living and Non-living Resources	01 April 2019	Unlikely there will be a material impact
• GRAP 12 (as amended 2016): Inventories	01 April 2018	Unlikely there will be a material impact
• GRAP 27 (as amended 2016): Agriculture	01 April 2018	Unlikely there will be a material impact
• GRAP 31 (as amended 2016): Intangible Assets	01 April 2018	Unlikely there will be a material impact
• GRAP 103 (as amended 2016): Heritage Assets	01 April 2018	Unlikely there will be a material impact
• GRAP 110 (as amended 2016): Living and Non-living Resources	01 April 2018	Unlikely there will be a material impact
• IGRAP 18: Interpretation of the Standard of GRAP on Recognition and Derecognition of Land	01 April 2019	Unlikely there will be a material impact
• Directive 12: The Selection of an Appropriate Reporting Framework by Public Entities	01 April 2018	Unlikely there will be a material impact
• GRAP 20: Related parties	01 April 2017	Unlikely there will be a material impact
• GRAP 26 (as amended 2016): Impairment of cash-generating assets	01 April 2018	Unlikely there will be a material impact
• GRAP 109: Accounting by Principals and Agents	01 April 2017	Unlikely there will be a material impact
• GRAP 21 (as amended 2016): Impairment of non-cash-generating assets	01 April 2018	Unlikely there will be a material impact
• GRAP 18 (as amended 2016): Segment Reporting	01 April 2018	Unlikely there will be a material impact
• GRAP 17 (as amended 2016): Property, Plant and Equipment	01 April 2018	Unlikely there will be a material impact
• GRAP 16 (as amended 2016): Investment Property	01 April 2018	Unlikely there will be a material impact
• GRAP 106 (as amended 2016): Transfers of functions between entities not under common control	01 April 2018	Unlikely there will be a material impact

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

GRAP 6 (as revised 2010): Consolidated and Separate Financial Statements

The definition of 'minority interest' has been amended to 'non-controlling interest', and paragraph .60 was added by the Improvements to the Standards of GRAP issued in November 2010. An entity shall apply these amendments prospectively for annual financial periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107]. If an entity elects to apply these amendments earlier, it shall disclose this fact.

Paragraph .59 was amended by Improvements to the Standards of GRAP issued in November 2010. An entity shall apply these amendments prospectively for annual financial periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107] from the date at which it first applied the Standard of GRAP on Non-current Assets Held for Sale and Discontinued Operations. If an entity elects to apply these amendments earlier, it shall disclose this fact.

The Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers amended paragraphs .03, .39, .47 to .50 and added paragraphs .51 to .58 and .61 to .62. An entity shall apply these amendments when it applies the Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers.

An entity shall apply this amendment for annual financial statements covering periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107].

The municipality expects to adopt the amendment for the first time in the 2015 annual financial statements.

GRAP 7 (as revised 2010): Investments in Associates

Paragraphs .03 and .42 were amended by the Improvements to the Standards of GRAP issued in November 2010. An entity shall apply these amendments prospectively for annual financial periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107]. If an entity elects to apply these amendments earlier, it shall disclose this fact.

The Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers amended paragraphs .22, .28 and .38 and added paragraph .24. An entity shall apply these amendments and addition when it applies the Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers.

An entity shall apply this amendment for annual financial statements covering periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107].

The municipality expects to adopt the amendment for the first time in the 2015 annual financial statements.

Paragraph .04 was amended by the improvements to the Standards of GRAP issued in November 2010. An entity shall apply these amendments prospectively for annual financial periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107]. If an entity elects to apply these amendments earlier, it shall disclose this fact.

The Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers added paragraph .50 and amended paragraphs .51 and .52. An entity shall apply these amendments and addition when it applies the Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers.

An entity shall apply this amendment for annual financial statements covering periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107].

The municipality expects to adopt the amendment for the first time in the 2015 annual financial statements.

Auditor General South Africa
Mpumalanga Business Unit

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

The objective of this Standard is to establish accounting principles for the acquirer and transferor in a transfer of functions between entities under common control. It requires an acquirer and a transferor that prepares and presents financial statements under the accrual basis of accounting to apply this Standard to a transaction or event that meets the definition of a transfer of functions. It includes a diagram and requires that entities consider the diagram in determining whether this Standard should be applied in accounting for a transaction or event that involves a transfer of functions or merger.

It furthermore covers Definitions, Identifying the acquirer and transferor, Determining the transfer date, Assets acquired or transferred and liabilities assumed or relinquished, Accounting by the acquirer and transferor, Disclosure, Transitional provisions as well as the Effective date of the standard.

The effective date of the standard is for years beginning on or after 01 April 2015.

The municipality expects to adopt the standard for the first time in the 2015 annual financial statements.

The objective of this Standard is to establish accounting principles for the acquirer in a transfer of functions between entities not under common control. It requires an entity that prepares and presents financial statements under the accrual basis of accounting to apply this Standard to a transaction or other event that meets the definition of a transfer of functions. It includes a diagram and requires that entities consider the diagram in determining whether this Standard should be applied in accounting for a transaction or event that involves a transfer of functions or merger.

It furthermore covers Definitions, Identifying a transfer of functions between entities not under common control, The acquisition method, Recognising and measuring the difference between the assets acquired and liabilities assumed and the consideration transferred, Measurement period, Determining what is part of a transfer of functions, Subsequent measurement and accounting, Disclosure, Transitional provisions as well as the Effective date of the standard.

The effective date of the standard is for years beginning on or after 01 April 2015.

The municipality expects to adopt the standard for the first time in the 2015 annual financial statements.

An entity may be created to accomplish a narrow and well-defined objective (e.g. to effect a lease, research and development activities or a securitisation of financial assets). Such a special purpose entity ("SPE") may take the form of a corporation, trust, partnership or unincorporated entity. SPEs often are created with legal arrangements that impose strict and sometimes permanent limits on the decision-making powers of their management over the operations of the SPE. Frequently, these provisions specify that the policy guiding the ongoing activities of the SPE cannot be modified, other than perhaps by its creator or sponsor (ie they operate on so-called 'autopilot'). The sponsor (or entity on whose behalf the SPE was created) frequently transfers assets to the SPE, obtains the right to use assets held by the SPE or performs services for the SPE, while other parties ("capital providers") may provide the funding to the SPE. An entity that engages in transactions with an SPE (frequently the creator or sponsor) may in substance control the SPE. A beneficial interest in an SPE may, for example, take the form of a debt instrument, an equity instrument, a participation right, a residual interest or a lease. Some beneficial interests may simply provide the holder with a fixed or stated rate of return, while others give the holder rights or access to other future economic benefits or service potential of the SPE's activities. In most cases, the creator or sponsor (or the entity on whose behalf the SPE was created) retains a significant beneficial interest in the SPE's activities, even though it may own little or none of the SPE's net assets.

The Standard of GRAP on Consolidated and Separate Financial Statements requires the consolidation of entities that are controlled by the reporting entity. However, the Standard of GRAP does not provide explicit guidance on the consolidation of SPEs. The issue is under what circumstances an entity should consolidate an SPE. This interpretation of the Standards of GRAP does not apply to post-employment benefit plans or other long-term employee benefit plans to which the Standard of GRAP on Employee Benefits applies.

A transfer of assets from an entity to an SPE may qualify as a sale by that entity. Even if the transfer does qualify as a sale, the provisions of the Standard of GRAP on Consolidated and Separate Financial Statements and this interpretation of the Standards of GRAP may mean that the entity should consolidate the SPE. This interpretation of the Standards of GRAP does not address the circumstances in which sale treatment should apply for the entity or the elimination of the consequences of such a sale upon consolidation.

The effective date of this interpretation is dependent on/in conjunction with the effective date of GRAP 105, 106 and 107.

The municipality expects to adopt the interpretation for the first time in the 2015 annual financial statements.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

2. New standards and Interpretations (continued)

Paragraph .54 in the Standard of GRAP on Interests in Joint Ventures refers to both contributions and sales between a venturer and a joint venture as follows: 'When a venturer contributes or sells assets to a joint venture, recognition of any portion of a gain or loss from the transaction shall reflect the substance of the transaction'. In addition, paragraph 31 in the Standard of GRAP on Interests in Joint Ventures says that 'a jointly controlled entity is a joint venture that involves the establishment of a corporation, partnership or other entity in which each venturer has an interest'. There is no explicit guidance on the recognition of gains and losses resulting from contributions of non-monetary assets to jointly controlled entities ('JCEs').

Contributions to a JCE are transfers of assets by venturers in exchange for an interest in the net asset in the JCE. Such contributions may take various forms. Contributions may be made simultaneously by the venturers either upon establishing the JCE or subsequently. The consideration received by the venturer(s) in exchange for assets contributed to the JCE may also include cash or other consideration that does not depend on future cash flows of the JCE ('additional consideration').

The issues are:

- when the appropriate portion of gains or losses resulting from a contribution of a non-monetary asset to a JCE in exchange for an interest in the net assets in the JCE should be recognised by the venturer in surplus or deficit;
- how additional consideration should be accounted for by the venturer; and
- how any unrealised gain or loss should be presented in the consolidated

This Interpretation of the Standards of GRAP deals with the venturer's accounting for non-monetary contributions to a JCE in exchange for an interest in the net assets in the JCE that is accounted for using either the equity method or proportionate consolidation.

The effective date of this interpretation is dependent on/in conjunction with the effective date of GRAP105, 106 and 107.

The municipality expects to adopt the interpretation for the first time in the 2015 annual financial statements.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

Details of valuation

The valuation was based on the report conducted by HP Matidza professional valuer (Reg No: 4953/7) from Ndiala Mass valuation . The general evaluation came into effect on 01 July 2014.

The valuations was based on deemed cost approach, in line with the municipality adopted approach in valuation of investment properties. The deemed cost is described as per GRAP Directive 7 [4].

	<u>9 725 000</u>	<u>8 088 000</u>

Notes to the Annual Financial Statements

	2017 R	2016 R
16. Long service bonus liability (continued)		
Nature of Liability		
<p>The employer's long service bonus awards consist of an obligation to pay out a bonus in the year of the employee attaining the required service. This obligation represents a liability to the employer and the value is represented by the present value of the total long service bonus awards expected to become payable under the employer's current policy. Dr JS Moroka offers bonuses for every 5 years of completed service from 10 years to 45 years.</p> <p>Long service accumulated leave must be taken within one year of receiving such leave or may be wholly or partially cashed. Dr JS Moroka advised that in most cases, employees choose to exercise the option to wholly convert their accumulative leave bonus days into cash.</p>		
Summary of actuarial assumptions		
<p>The long service bonus awards are a function of accumulated leave days. The long service bonus awards is a function of annual leave days and is convertible into cash in the year the employee attains the service eligible for an award. As a result the award is also function of the employee's annual salary.</p> <p>The annual salary is converted into a daily salary by dividing the annual salary by 250. The consumer price inflation of 6.82% p.a. is obtained from the differential between the long term market yield on the index-linked bond (the R197 at 1.58% p.a.) consistent with the estimated term of the liabilities and those of nominal bond (the R186 at 8.48% p.a.). However, it is the relative levels of the discount rate and salary inflation to one another that are important, rather than the nominal values. We have assumed that salary inflation will exceed consumer price inflation by 1% per annum. The assumption regarding the relative levels of these two rates is our expectation of the long-term average. Accounting Standard IAS19 defines the determination of the investment return assumption to be used as the rate that can be determined by reference to market yields at the balance sheet date on high quality corporate bonds. In countries where there is no deep market in such bonds, the market yields (at the balance sheet date) on government bonds should be used.</p> <p>The currency and term of the corporate bonds or government bonds should be consistent with the currency and estimated term of the post-employment benefit obligations. As such a discount rate of 8.51% p.a. has been used. This was derived from the yield curve, without a tax adjustment, obtained from the Bond.</p>		
Liability valuation method		
<p>Accrued liabilities are defined as the actuarial present value of all benefits expected to be paid in future based on service accrued to the valuation date and awards projected to retirement date. In determining these liabilities, due allowance has been made for future award increases. For each employee, this projection is based on the probability of being employed at each service award date, taking into account the assumed rates of withdrawal, early retirement and death. In accordance with the requirements of IAS19, the Projected Unit Credit method of funding has been applied.</p>

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
23. Property rates		
Rates received		
Residential	9 109 480	8 358 417
Commercial	8 311 614	1 512 000
State	45 712 304	10 384 377
Small holdings and farms	187 914	697 333
Less: Income forgone	(5 627 661)	(1 323 614)
	57 693 651	19 638 513
Valuations Roll		
Residential	1 271 706 520	1 268 552 300
Commercial	122 020 597	178 372 911
State	1 137 910 050	680 235 700
Small holdings and farms	408 139 461	121 536 407
	2 937 776 628	2 248 697 318

The valuation on land and building are performed every 5 years. The general Valuation roll came into effect on the 01 July 2014. The basic rates of R0.017252 (R0.001540: 2016) on the value of agricultural land and buildings, R0.017252 (R0.017252:2016) on the value of commercial business land and buildings, R0.017252 (0.017252:2016) on the value of state land and buildings and R0.0072 (R0.0072:2016) on the value of residential land and buildings are applied to determine assessment rates. These rates were agreed to the approved tariff policy.

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
24. Government grants and subsidies		
Equitable share	302 718 802	314 082 297
Municipal Infrastructure Grant	119 102 000	131 371 598
Financial Management Grant	1 625 000	1 600 000
Municipal Systems Improvement Grant	-	830 776
WSOG Grant	-	18 825 507
EPWP Grant	4 257 000	3 257 000
	<u>427 702 802</u>	<u>469 987 178</u>

Equitable Share

In terms of section 227 of the Constitution, the equitable share grant is used to subsidise the provision of basic services and the day to day operations of the municipality.

Municipal infrastructure grant

Balance unspent at beginning of year	-	6 620 598
Current-year receipts	119 102 000	124 751 000
Conditions met - transferred to revenue	(119 102 000)	(131 371 598)
	<u>-</u>	<u>-</u>

Conditions still to be met - remain liabilities (see note 14).

The grant is used to supplement municipal capital budgets to eradicate backlogs on municipal infrastructure utilised in providing basic services. Other than the unspent amount, the conditions of the grant were met and no funds have been withheld.

Financial Management Grant

Current-year receipts	1 625 000	1 600 000
Conditions met - transferred to revenue	(1 625 000)	(1 600 000)
	<u>-</u>	<u>-</u>

Conditions still to be met - remain liabilities (see note 14).

The purpose of the grant is to promote and support reforms to financial management and the implementation of the MFMA. Other than the unspent amount, the conditions of the grant were met and no funds have been withheld.

Dr JS Moroka Local Municipality
Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
24. Government grants and subsidies (continued)		
MSIG		
Balance unspent at beginning of year	99 224	43 297
Current-year receipts	-	930 000
Conditions met - transferred to revenue	(99 224)	(830 776)
Return to Treasury	-	(43 297)
	<u> -</u>	<u> 99 224</u>

Conditions still to be met - remain liabilities (see note 14).

The grant was used to assist the municipality in building in-house capacity to perform their functions and stabilise institutional and governance systems as required in the local government municipal systems act 32 of 2000. Other than the unspent amount, the conditions of the grant were met and no funds have been withheld.

EPWP

Current-year receipts	4 257 000	3 257 000
Conditions met - transferred to revenue	(4 257 000)	(3 257 000)
	<u> -</u>	<u> -</u>

Conditions still to be met - remain liabilities (see note 14).

The grant was used to provide poverty and income relief through temporary work for the unemployed to carry out socially useful activities. Other than the unspent amount, the conditions of the grant were met and no funds have been withheld.

WSOG Grant

Balance unspent at beginning of year	195 578	4 021 085
Current-year receipts	-	15 000 000
Conditions met - transferred to revenue	(195 578)	(18 825 507)
Return to Treasury	-	-
	<u> -</u>	<u> 195 578</u>

The grant was used to finance the refurbishment, operation and maintenance of the water treatment plant.

Changes in level of government grants

Based on the allocations set out in the Division of Revenue Act, no significant changes in the level of government grant funding are expected over the forthcoming 3 financial years.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
44. Prior period errors		
1) Property, plant and equipment		
Balance as previously reported	1 848 843 413	
Adjustment for prior period errors	(26 248 707)	
Restated balance	1 822 394 706	

Infrastructure assets - The asset register consist of high mast light with carrying value of R26 248 707 which could not be verified on the ground.

2) Other income		
Balance as previously reported	17 048 883	
Adjustment for prior period errors	(13 621 595)	
Restatement balance	3 427 288	

The other income account was including the amount from negative billing.

The correction of the error(s) results in adjustments as follows:

Statement of financial position		
Decrease in property, plant and equipment	-	(26 248 707)
Increase in accumulated surplus	-	39 870 303

Statement of Financial Performance		
Decrease in other income	-	13 621 596

45. Risk management

Financial risk management

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Market risk

Price risk

The municipality is exposed to equity securities price risk because of investments held by the municipality and classified on the statement of financial position at fair value. The municipality is not exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the municipality diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the municipality.

surplus for the year would increase/decrease as a result of gains or losses on equity securities classified as at fair value through surplus or deficit. Other components of equity would increase/decrease as a result of gains or losses on equity securities classified a available-for-sale.

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
--	-----------	-----------

46. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

47. Events after the reporting date

There were no material events after reporting date that required adjustments in the financial statements.:

48. Unauthorised expenditure

Opening balance	21 931 903	12 880 774
Current	52 943 876	9 051 129
	<u>74 875 779</u>	<u>21 931 903</u>

The current unauthorised expenditure of R39 736 124.82 is due to the overspending of various votes not the total amount appropriated in the municipal approved budget.

49. Fruitless and wasteful expenditure

Opening balance	3 832 687	3 797 999
Current year	58 096	34 688
	<u>3 890 783</u>	<u>3 832 687</u>

Mentioned matters have been referred to council committee for investigation.

50. Irregular and authorised expenditure

Opening balance	315 876 071	215 102 521
Add: Irregular Expenditure - current year	173 219 943	100 773 550
Written off	(215 102 521)	-
	<u>273 993 493</u>	<u>315 876 071</u>

Dr JS Moroka Local Municipality

Annual Financial Statements for the year ended 30 June 2017

Notes to the Annual Financial Statements

	2017 R	2016 R
51. Additional disclosure in terms of Municipal Finance Management Act (continued)		
In the financial year 2015/16 there were no councillors having outstanding balance for more than 90 days.		
Supply chain management regulations		
In terms of section 36 of the Municipal Supply Chain Management Regulations any deviation from the Supply Chain Management Policy needs to be approved/condoned by the Municipal Manager and noted by Council.		
Incident		
Entertainment	128 045	256 873
Repair and Maintenance	241 931	1 780 652
Advertisement	600 513	79 115
Transport	53 650	271 410
Training	190 654	581 386
Other	202 347	627 559
	1 417 140	3 596 995

52. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the annual financial statements.

The municipality incurred expenditure amounting to R1 417 140 (2016: R3 596 995) during the financial year under review and the process followed in procuring those goods deviated from the provisions of paragraph 12(1)(d)(i) as stated above. The reasons for these deviations were documented and reported to the accounting officer who considered them and subsequently approved the deviation from the normal supply chain management regulations.

53. Particulars of Non - Compliance with the MFMA of 2003

Details		
Irregular and unauthorised expenditure	184 382 558	315 876 071
Fruitless and Wasteful Expenditure	92 784	3 832 687
Unauthorised expenditure	48 787 254	21 931 903
	233 262 596	341 640 661

The Municipality did not comply with the MFMA act 56 of 2003 on the above mentioned expenditures
