1. EXECUTIVE MAYOR'S FOREWORD

The 2018/2019 final annual budget is presented and tabled in terms of section 24 of the Municipal Finance management Act no. 56 of 2003 which prescribes that "the municipal council must at least 30 days before the start of the budget year consider approval of the annual budget" The Act further provides that's the Accounting Officer of a municipality must submit the approved annual budget to the National Treasury and the relevant provincial treasury.

This final budget is a culmination of the process of community consultation wherein the strategic IDP document was reviewed. All necessary precaution have been followed that this budget is appropriately aligned to the reviewed IDP. The final budget aims to satisfy the constitutional obligation of the municipality as contained in Part B of schedule 4 and 5 of ACT 108 OF 1996. The comments and inputs from were received from the community and it must be noted that inputs from communities mostly where not changing the annual budget but rather submission of new priorities which needs to be considered when planning for the next financial year.

The 2018/2019 final budget has maintained our resolute approach of prioritizing water projects. 46% of the total capital budget has allocated for water provision within different areas of the municipality with the main aim of reducing the water infrastructure backlog.

The efforts of the municipality to extract itself from grant dependence will only be achieved if the municipality thoroughly implement all its revenue collection strategies and plans. The budget related policies which are concurrently being tabled with the final budget gives the municipality the necessary legal standing to enforce the collection of rates and taxes.

Therefore this 2018/2019 budget annual budget has been approved by council for implementation.

EXECUTIVE MAYOR
Cllr Thulare Madileng

3. EXECUTIVE SUMMARY

National Treasury issued MFMA circular numbers 91 to guide the preparation of the 2018/2019 MTREF. The 2018/2019 budget is informed by low revenue base and lack of economic activity which has affected the anticipated revenue collection. The poor revenue collection in the previous financial year has prompted the municipality to continue doing the zero based budgeting.

It is further critical to give special attention to revenue management, credit control and debt collection to ensure that the municipality's cash flow position is improved in within the short term.

The municipal budget is manly funded through National Government Grants. The purpose of Infrastructure government grants is to deliver on national government priorities relating to service delivery while the main purpose of the equitable share is to fund the provision of free basic services to the poor.

In view of the above mentioned, the following table is a consolidated overview of the 2018/19 final Revenue and Expenditure budget

Table 1:

REVENUE & EXPENDITURE SUMMARY	2018/2019 FINAL BUDGET	2019/2020 BUDGET	2020/2021 BUDGET
Revenue	R 596,558,000	R 626,137,250	R 660,848,097
Operating Expenditure	(R 474,121,280)	(R 506,586,556)	(R 536,748,649)
Capital Expenditure	(R 122,391,000)	(R 124,724,000)	(R 131,666,910)
Surplus/(Deficit)	R 45,720	(R 5,173,306)	(R 7,567,462)

Total final projected revenue for 2018/2019 financial year is at **R 596,558,000** which comprises of grants and own revenue and the total final operating expenditure for the 2018/19 financial year has been projected at **R474,121,280** which makes **79%** of the total budget and capital budget at **21%** of the total budget.

3.1 FINAL OPERATING REVENUE

For the municipality to continue improving the quality of services provision to its community it needs to generate the required amount of revenue. In these tough economic times strong revenue management is essential to the financial sustainability of every municipality. The reality is that the municipality is faced with developmental backlogs. The expenditure required to address these challenges will always exceed available funds; hence drastic measures has to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The following table is a summary of the 2018/19 MTREF (classified by own revenue source):

The total funding or projected revenue for the final annual budget is **R 596,558,000** which is **80%** of grants and subsidies and **20%** of own revenue projected.

The following table illustrate the own revenue by source:
